

The following communications regarding the merger between American Water Works Company, Inc. and Essential Utilities, Inc. were published on the social media channels identified below on May 29, 2026.

#### **Chris Franklin — Personal LinkedIn**

Thirty-three years ago, I joined what was then Philadelphia Suburban Water. At the time, I didn't know much about water infrastructure — like most people, I simply turned on the faucet and expected water to be there. I learned quickly just how much responsibility comes with delivering an essential service people depend on every day.

That perspective has stayed with me throughout my career, and it's especially relevant as we look ahead to our merger with @American Water. Together, we'll create a company serving millions of people across the country, with the Greater Philadelphia region representing nearly 20% of our combined customer base.

Recently, @John Griffith and I sat down to discuss what this merger means for the communities we serve. We share a belief that water is not a commodity; it is a basic human need. And the people entrusted with delivering it carry an extraordinary responsibility.

That responsibility doesn't end at the meter. We live in these communities, too. We are your neighbors, and that won't change.

#### **Essential Utilities — Company LinkedIn**

The merger between Essential Utilities and @American Water will create one of the nation's leading regulated utilities — serving 4.7 million customer connections across 17 states, with the Greater Philadelphia region representing nearly 20% of the combined customer base.

In @The Philadelphia Inquirer's Changemaker Spotlight, Essential Chairman and CEO @Chris Franklin and American Water President and CEO @John Griffith discuss the future of water infrastructure, affordability and service, and what it will take to meet the growing challenges facing communities across the country.

This work has been more than 140 years in the making, and we're just getting started.
